INDEPENDENT AUDITOR'S REPORT

Board of Directors
Denargo Market Metropolitan District No. 2
City and County of Denver, Colorado

We have audited the accompanying financial statements of the governmental activities and each major fund of the Denargo Market Metropolitan District No. 2 as of and for the year December 31, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Denargo Market Metropolitan District No. 2, as of December 31, 2019, and the respective changes in financial position and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Denargo Market Metropolitan District No. 2's basic financial statements. The budget to actual schedule for the Debt Service Fund (Supplementary Information), the Schedule of Assessed Valuation, Mill Levy and Property Taxes Collected (Other Information) are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Supplementary Information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supplementary Information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Other Information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Amounts reported for governmental activities in the statement of activities are different because:

Long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.

DENARGO MARKET METROPOLITAN DISTRICT NO. 2
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2019

NOTE 1 DEFINITION OF REPORTING ENTITY

Denargo Market Metropolitan District No. 2 (the District, or District No. 2), a quasi-municipal corporation and political subdivision of the State of Colorado was organized by recorded order and decree of the District Court for the City and County of Denver (the City) on June 30, 2010, and is governed pursuant to provisions of the Colorado Special District Act (Title 32, Article 1, Colorado Revised Statutes). The District operates under a Service Plan approved by the City on March 8, 2010. The District's service boundaries are located entirely within the City. The District is one of three related districts: Denargo Market Metropolitan Districts Nos. 1, 2 and 3 (the Districts). As of December 31, 2018, the Districts have the same membership of their respective Boards of Directors. Pursuant to the Service Plan, Districts Nos. 2 and 3 are referred to as the Financing Districts or Taxing Districts and District No. 1 is the Management District.

The Management District is responsible for managing, implementing and coordinating the financing, acquisition, construction, completion, operation and maintenance of all public infrastructure and services within and without the project known as Denargo Market. The Financing Districts provide the funding for the improvements and the tax base needed to support ongoing operations of the Districts.

The District, in its capacity as a Financing District, or Taxing District, is responsible for supporting the Management District in managing, implementing and coordinating the financing, acquisition, construction, completion and maintenance of the Improvements (as defined in the Service Plan), some of which may ultimately be transferred to the City or other governmental entity, and the provision of related services within and without the boundaries of the Districts and the Service Area (as defined in the Service Plan).

The District has no employees and all operations and administrative functions are contracted.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements, which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens, and fiscal dependency.

The District is not financially accountable to any other organization, nor is the District a component unit of any other primary governmental entity.

DENARGO MARKET METROPOLITAN DISTRICT NO. 2
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2019

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The more significant accounting policies of the District are described as follows:

Government-Wide and Fund Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. These financial statements include all of the activities of the District. Governmental activities are normally supported by taxes and special assessment fees.

The statement of net position reports all financial and capital resources of the District. The difference between the sum of assets and deferred outflows and the sum of liabilities and deferred inflows is reported as net position.

The statement of activities demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Other items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met. Expenditures for capital assets are shown as increases in assets and redemption of bonds and notes are recorded as a reduction in liabilities.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days after year-end. The major sources of revenue susceptible to accrual are property taxes. All other revenue items are considered to be measurable and available only when cash is received by the District. Expenditures are recorded when the related fund liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

DENARGO MARKET METROPOLITAN DISTRICT NO. 2
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2019

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Debt Service Fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of the governmental funds.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Budgets

In accordance with the State Budget Law, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures level and lapses at year end. The District can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting unless otherwise indicated.

The District has amended its annual budget for the year ended December 31, 2019.

Cash and Investments

Colorado Revised Statutes specify investment instruments meeting defined rating and risk criteria in which the District may invest which include: obligations of the United States and certain U.S. government agency securities, general obligation and revenue bonds of U.S. local government entities, bankers acceptances of certain banks, commercial paper, certain corporate bonds, written repurchase agreements collateralized by certain authorized securities, certain money market funds, guaranteed investment contracts, and local government investment pools.

Cash and investments are presented on the balance sheet in the basic financial statements at fair value.

DENARGO MARKET METROPOLITAN DISTRICT NO. 2
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2019

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property Taxes

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or if in equal installments, at the taxpayer's election, in February and June. Delinquent taxpayers are notified in July or August and the sales of the resultant tax liens on delinquent properties are generally held in November or December. The County Treasurer remits the taxes monthly to the District.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflow of resources in the year they are levied and measurable. The unearned property tax revenues are recorded as revenue in the year they are available or collected.

Restricted Assets

Certain assets whose use is restricted for bonded debt service by debt indentures are segregated on the government-wide statement of net position and the fund balance sheet.

Deferred Inflows of Resources

In addition to liabilities, the statement of net position and the balance sheet report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position/fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has only one item that qualifies for reporting in this category. Accordingly, the item, property tax revenue, is deferred and recognized as an inflow of resources in the period that the amounts become available.

Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net position.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Issuance costs, even if withheld from the actual new proceeds received, are reported as debt service expenditures.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Equity

Net Position

For government-wide presentation purposes, when both restricted and unrestricted resources are available for use, it is the District's practice to use restricted resources first, then unrestricted resources as they are needed.

Fund Balance

Fund balance for governmental funds should be reported in classifications that comprise a hierarchy based on the extent to which the government is bound to honor constraints on the specific purposes for which spending can occur. Governmental funds report up to five classifications of fund balance: nonspendable, restricted, committed, assigned, and unassigned. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications describe the relative strength of the spending constraints:

Nonspendable Fund Balance – The portion of fund balance that cannot be spent because it is either not in spendable form (such as prepaid amounts or inventory) or legally or contractually required to be maintained intact.

Restricted Fund Balance – The portion of fund balance that is constrained to being used for a specific purpose by external parties (such as bondholders), constitutional provisions, or enabling legislation.

Committed Fund Balance – The portion of fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the Board of Directors. The constraint may be removed or changed only through formal action of the Board of Directors.

Assigned Fund Balance – The portion of fund balance that is constrained by the government's intent to be used for specific purposes, but is neither restricted nor committed. Intent is expressed by the Board of Directors to be used for a specific purpose. Constraints imposed on the use of assigned amounts are more easily removed or modified than those imposed on amounts that are classified as committed.

Unassigned Fund Balance – The residual portion of fund balance that does not meet any of the criteria described above.

If more than one classification of fund balance is available for use when an expenditure is incurred, it is the District's practice to use the most restrictive classification first.

NOTE 3 CASH AND INVESTMENTS

Cash and investments as of December 31, 2019, are classified in the accompanying financial statements as follows:

Statement of Net Position:

Cash and Investments	\$ 12,958
Cash and Investments - Restricted	<u>25,845</u>
Total Cash and Investments	<u><u>\$ 38,803</u></u>

Cash and investments as of December 31, 2019, consist of the following:

Deposits with Financial Institutions	\$ 17,634
Investments	<u>21,169</u>
Total Cash and Investments	<u><u>\$ 38,803</u></u>

Deposits with Financial Institutions

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least 102% of the aggregate uninsured deposits.

The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

At December 31, 2019, the District's cash deposits had a bank balance and a carrying balance of \$17,634.

Investments

The District has not adopted a formal investment policy; however, the District follows state statutes regarding investments.

The District generally limits its concentration of investments to those noted with an asterisk (*) below, which are believed to have minimal credit risk, minimal interest rate risk and no foreign currency risk. Additionally, the District is not subject to concentration risk or investment custodial risk disclosure requirements for investments that are in the possession of another party.

Colorado revised statutes limit investment maturities to five years or less unless formally approved by the Board of Directors. Such actions are generally associated with a debt service reserve or sinking fund requirements.

DENARGO MARKET METROPOLITAN DISTRICT NO. 2
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2019

NOTE 3 CASH AND INVESTMENTS (CONTINUED)

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest which include:

- . Obligations of the United States, certain U.S. government agency securities and securities of the World Bank
- . General obligation and revenue bonds of US local government entities
- . Certain certificates of participation
- . Certain securities lending agreements
- . Bankers' acceptances of certain banks
- . Commercial paper
- . Written repurchase agreements and certain reverse repurchase agreements collateralized by certain authorized securities
- . Certain money market funds
- . Guaranteed investment contracts
- * Local government investment pools

At December 31, 2019, the District had the following investments:

<u>Investment</u>	<u>Maturity</u>	<u>Amount</u>
Colorado Local Government Liquid Asset Trust (COLOTRUST)	Weighted Average Under 60 Days	<u>\$ 21,169</u>

COLOTRUST

The District invested in the Colorado Local Government Liquid Asset Trust (COLOTRUST) (the "Trust"), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust operates similarly to a money market fund and each share is equal in value to \$1.00. The Trust offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+. Both portfolios may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper and any security allowed under CRS 24-75-601. A designated custodial bank serves as custodian for the Trust's portfolios pursuant to a custodian agreement. The custodian acts as safekeeping agent for the Trust's investment portfolios and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by the Trust. COLOTRUST is rated AAAM by Standard & Poor's. COLOTRUST records its investments at fair value and the District records its investment in COLOTRUST at net asset value as determined by fair value. There are no unfunded commitments, the redemption frequency is daily, and there is no redemption notice period.

NOTE 5 DISTRICT AGREEMENTS

Memorandum of Understanding

A Memorandum of Understanding was entered into on October 29, 2010, and amended on August 22, 2016, by and among the District, District No. 1 and District No. 3 (MOU). The MOU acknowledges that District No. 1 shall provide for the financing, construction, design, operation and maintenance of the Improvements, as well as the overall administration of the Districts and further acknowledges that District No. 1 has the authority to enter into agreement(s) and other obligations with the developer of the Property to provide for the financing of such services. The District issued the 2016A Loan to repay the 2010 Note and the District and District No. 3 will impose an operations mill levy to fund the Districts' services provided by District No. 1. The MOU acknowledges that the Districts will enter into an IGA detailing such services (District IGA). The MOU further provides that the District IGA will require District No. 1 and District No. 3 to reimburse the District for any debt issued by the District for public improvements on an allocable basis.

NOTE 5 DISTRICT AGREEMENTS (CONTINUED)

Memorandum of Understanding (Continued)

During the year ending December 31, 2019, the District transferred \$204,715 and \$472,971 to District No. 1, representing property and specific ownership taxes collected by the District and loan proceeds for the purpose of repaying developer advances, respectively.

Capital Pledge Agreement

On October 29, 2010, the District entered into a Capital Pledge Agreement (the Pledge Agreement) with District No. 1 and District No. 3. The terms of the Pledge Agreement call for the District and District No. 3 (the Taxing Districts) to pledge revenues, consisting of property taxes, specific ownership taxes and facilities fees, towards the payment of the \$22,612,500 Subordinate Nonrevolving Line of Credit Note, Series 2010 (the 2010 Note) between District No. 1 and Denargo Market, L.P. The 2010 Note was subsequently reissued to Denargo Market Development, LLC (the "Developer") and such 2010 Note was further Amended and Restated. The Taxing Districts agreed to impose the Capital Levies upon the direction of District No. 1 for 30 years after the direction of District No. 1 in the amount of the Capital Levies as determined by District No. 1; provided however that the Capital Levy cannot exceed 35 mills for each Taxing District, provided that in the event the method of calculating assessed valuation is changed after March 8, 2010, the maximum mill levy will be increased or decreased to reflect such changes. If the Notes are held by an owner who does not qualify as a "financial institution or an institutional investor" as defined in §32-1-103 (6.5), C.R.S., or does not otherwise meet the requirements of §32-1-1101(6)(a) C.R.S., then the Capital Levy shall not be subject to adjustment.

The Series 2016A Loan (see Note 4) repaid amounts outstanding to the Developer under the 2010 Note and accordingly, the 2010 Note was amended and restated to an amount not to exceed \$500,000, reflecting amounts due to the Developer following the issuance of the Series 2016A Loan and use of the proceeds thereof to pay down the 2010 Note (the Amended Note).

On September 29, 2016, the Districts entered into an Amendment to and Subordination of Capital Pledge Agreement (the Subordination Agreement). The Subordination Agreement states that any and all obligations of the Districts under the Pledge Agreement are fully subordinate and shall be performed and payable only on a subordinate basis to the 2016 Loan (see Note 4). The Parties further acknowledge that any proceeds received in the future from the Series 2016B Loan shall be used first to repay the Amended Note and at such time as the Amended Note is paid in full, the Pledge Agreement shall terminate and be of no further force and effect.

NOTE 6 NET POSITION

The District has net position consisting of one component – unrestricted.

Unrestricted net position represents assets that do not have any third-party limitations on their use. The District's unrestricted net position as of December 31, 2019 is (\$10,616,651). This deficit amount was a result of the District being responsible for the repayment of debt obligations issued for public improvements, which were conveyed to other entities.

NOTE 7 RELATED PARTY

For a portion of the year, some members of the Board of Directors of the District may be or have been employees, consultants, owners of, or otherwise associated with the original developer, Denargo Market L.P. or the Developer, and may have conflicts of interest in dealing with the District. During the year, Denargo Market L.P. sold the undeveloped property within the District's service area and portions of the District property to the current developer JV Denargo LLC. ("Current Developer"). For a portion of the year, some members of the Board of Directors may have been employees of, or otherwise associated with the Current Developer. Accordingly, certain members of the Board are affiliated with the Current Developer and may have conflicts of interest in dealing with the District. Additionally, one of the directors is employed by the City and as such, may have conflicts of interest in dealing with the District. Specific details of transactions with the Developer regarding organization, advances and debt are described elsewhere in these footnotes.

NOTE 8 RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, thefts of, damage to, or destruction of assets, errors or omissions, injuries to employees, or natural disasters.

The District is a member of the Colorado Special Districts Property and Liability Pool (Pool). The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials' liability, boiler and machinery, and workers compensation coverage to its members. Settled claims have not exceeded this coverage in any of the past three fiscal years.

The District pays annual premiums to the Pool for general and automobile liability, public officials, auto physical damage and worker's compensation coverage. In the event aggregate losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds, which the Pool determines are not needed for purposes of the Pool, may be returned to the members pursuant to a distribution formula.

NOTE 9 TAX, SPENDING, AND DEBT LIMITATIONS

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR) contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases. The District transfers its net operating revenue to Denargo Market Metropolitan District No. 1 pursuant to the Memorandum of Understanding, as amended. Therefore, the Emergency Reserves related to the District's revenues are captured in the financial statements of Denargo Market Metropolitan District No. 1.

On May 4, 2010, the voters approved the District to increase property taxes \$3,000,000 annually for the purpose of paying the District's operations and maintenance expenses and \$6,000,000 (up to 10 mills) for paying the costs associated with regional improvements as required by the City, without regard to any spending, revenue raising or other limitation contained within Article X, Section 20 of the Colorado Constitution or any other property tax limitation or law.

Additionally, the voters authorized the District to collect, retain and spend all revenues received by the District during 2011 and all subsequent years as voter-approved revenue changes without regard to any spending, revenue raising or other limitation.

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits and qualification as an Enterprise will require judicial interpretation.
